† Project type definitions:
- Non habitable projects are those that are not dwelling types. Examples can be furniture, bus shelters, signage etc.
- Residential properties < 4 levels are typically easy to maintain, given their height and access.
- Light commercial projects < 4 levels are sheltered from neighbouring buildings, but require greater durability due to higher usage and wear.
- High rise residential and commercial projects are less sheltered from neighbouring buildings, raising their exposure and reducing their ease of maintenance.
- Prestigious commercial projects attract attention and require high quality finishes to uphold the longevity and design requirements.
- Monumental projects attract the most attention and have the highest standards required to uphold the reputation and protection expected from landmark sites.

Light Reflectance Value (LRV): The total amount of visible light reflected from the coating, expressed as a percentage of total incoming light. Surfaces with higher light reflectance values appear lighter while surfaces with low light reflectance values appear darker.

Specular Light Reflectance: The portion of incoming light that is reflected such that the reflected ray is at the same angle to the surface normal as the incoming ray. Specular light reflection is expressed as a percentage of total incoming light. Surfaces with a lower specular reflection produce less glare as they scatter or absorb a greater portion of the incoming light.

For further information on light reflectivity visit **duluxpowders.com.au/spec-solutions**

Worth doing, worth Dulux.®

Meeting Industry Standards

Dulux Duralloy, Precious and Protexture powder coat products are designed to meet both the global AAMA and Australian AS3715 standards for architectural aluminium finishes.

	Duralloy	Precious	Protexture
AAMA Standards	Meets 2603	Meets 2603	Exceeds 2603
Coating type	Durable Polyester	Durable Polyester	Highly Durable Polyester

Project suitability

Ensure you specify the right Dulux powder coat product for your requirements by using the following table to help define your project by type and exposure conditions. Refer to our Premium Architectural Colour Selector card for our Premium range of products suitable for other project types and conditions.

Product Suitability by Project

Project, Environment and Conditions			Top Coat Choice[2]			
Project Type[1]	Environment	Conditions[1]	Duralloy[3]	Precious[3]	Protexture[4]	Alphatec
Light Commercial (< 4 levels)	Exterior	Mild (C2-C3), Severe (C4-C5)			●	
Residential (< 4 levels)	Exterior	Severe (C4-C5)			●	
Residential (< 4 levels)	Exterior	Mild (C2-C3)	●	●	●	
Non-Habitable	Exterior	Severe (C4-C5)			●	
Non-Habitable	Exterior	Mild (C2-C3)	●	●	●	○
All Projects	Interior	Moderate Interior (C3-4)			●	
All Projects	Interior	General Interior (C1-C2)	●	●	●	○

● Steel Shield and Alumi Shield Warranties available.

○ Non Warrantable.

1. For more information about project conditions, corrosivity zones and corrosion rates refer to duluxpowers.com.au/warranties.
2. Primers may be required for perforated and expanded aluminium and steel applications depending on project conditions. For full system requirements refer to duluxpowders.com.au/warranties.
3. Duralloy and Precious are only suitable for coastal, river and lake salt water environments >100m from the high tide and are NOT suitable in strongly acidic or caustic environments so the pH must be between 5 and 9.
4. Protexture is only suitable for coastal, river and lake salt water environments >10m from the high tide and is NOT suitable in strongly acidic or caustic environments so the pH must be between 5 and 9.

For more information on specifying the right product for your project, call 13 24 99 or visit **duluxpowders.com.au**

Warranted Performance

All Dulux Duralloy, Precious and Protexture powder coat products are backed by product specific warranties on:

- Architectural aluminium, including perforated aluminium and expanded aluminium
- Mild steel, bright/semi bright steel, black steel and blue steel

	Warranty	Duralloy	Precious	Protexture
Alumi Shield Warranty	Aluminium Durability	10 Years	10 Years	15 Years
	Aluminium Colour	10 Years	10 Years	15 Years
Steel Shield Warranty	Steel Corrosion	Up to 10 Years	Up to 10 Years	Up to 10 Years
	Steel Colour	10 Years	10 Years	15 Years

Warranties are made up of a colour warranty (for fade and chalking), durability warranty (film integrity for aluminium only), and corrosion warranty (for steel only). They are only valid when applied by a Dulux Accredited Powder Coater to the warranty specification on recommended project types and conditions.

For more information visit **duluxpowders.com.au/warranties**

Dulux Accredited Powder Coaters

Only Dulux Accredited Powder Coaters are able to issue our Dulux Alumi Shield™ and Steel Shield™ warranties after demonstrating their capability to meet stringent quality conditions and international standards.

Dulux AccreditedPowderCoater
