SCENIC SCREENS

CAMBRIDGE · TASMANIA

Measuring sheet

Millimetres only

1 metre is 1000 mm. 90 cm is 900 mm. Don't round up.

Frame to frame

Three widths (top, middle, bottom) and three heights (left, centre, right). Use the smallest of each.

Opening or make size

Opening is the space the screen fits into. Make is the finished screen size. Window fly screens: make size only.

Doors

Measure everything from outside. Existing door handle height (floor, sill or bottom track to its centre), screen handle above or below it, and the handle side.

Sliding doors

Width from the edge of the side cover to the far edge of the mullion. Height rail to rail, or to the top of the top track if it has no rail (note which).

OPENING	PRODUCT AND MESH	W1 TOP	W2 MIDDLE	W3 BOTTOM	H1 LEFT	H2 CENTRE	H3 RIGHT	FINAL W × H	OPENING OR MAKE	DOOR HANDLE HEIGHT	SCREEN HANDLE ABOVE OR BELOW	HANDLE SIDE (FROM OUTSIDE)	NOTES

Enter your final sizes in the quote form on our website.
